Poster Preparation – Guidelines

1. A poster (A0 - 4'x3') with width and height 4' and 3' respectively. The contents of the presentation should be summarized in the poster. The font size may be around 25 pts if the text is legible.

2. There is **no need to print the poster**. However please use the above dimensions and formatting to print them when necessary.

3. To understand the purpose and basics of research posters please visit:

    -   [Designing conference posters » (colinpurrington.com)](#)

    -   [Logos & Images - How to Create a Research Poster - Research Guides at New York University (nyu.edu)](#)

4. Poster should be organized in an informative and self-explanatory manner.

5. Content should include (Not limited to):

    -   Title

    -   Introduction, Background, and Literature

    -   Research Problem and Objectives

    -   System Diagram and the Provided Solution

    -   Results and Discussion

    -   Necessary References

    -   Acknowledgments
